CLA Global

CLA Global Limited (CLA Global) was founded by CliftonLarsonAllen LLP and S&W.

The organisation offers one of the largest financial outsourcing services and private client and wealth advisory platforms of any global accounting organisation. Moreover, it hosts a culture of diversity and inclusion that uses combined strengths as its greatest competitive advantage.

Professionals in its member firms support clients by speaking their language and serving as their eyes and ears from a business, regulatory, and tax perspective — so they can help them cross borders confidently and efficiently.

Getting Started

The growth of the digital asset economy is rewriting the rules of financial markets, and businesses aiming to issue crypto-assets must navigate an increasingly regulated environment. At CLA Malta, we help you stay ahead by offering guidance and practical solutions to meet the new compliance standards set by the European Union.

The Markets in Crypto-Assets Regulation (MiCA), which came into force across the EU in 2023, was designed to bring legal clarity and stability to the rapidly evolving world of crypto-assets. Whether your business is preparing to issue a token pegged to fiat currency (EMT), an asset-backed token (ART), or any other digital asset, MiCA introduces specific requirements designed to protect investors and ensure market integrity across all EU jurisdictions.

Our team works with you, from drafting your whitepaper to liaising with regulators, ensuring your project meets MiCA's letter and spirit. By partnering with CLA Malta, you can focus on building your business while we handle the regulatory framework.

Whether you are planning an offering of Asset-Referenced Tokens (ARTs), Electronic Money Tokens (EMTs), or other crypto-assets, CLA Malta will tailor solutions to ensure your launch is both compliant and commercially sound.

MiCA: Classifying Crypto-Assets

MiCA defines crypto-assets in three key categories:

1. Asset-Referenced Tokens (ARTs): Tokens designed to maintain stable value by referencing one or more assets.
2. Electronic Money Tokens (EMTs): Tokens pegged to a single fiat currency.
3. Other Crypto-Assets: Any digital representation of value outside the ART and EMT definitions.

How We Deliver Value

Our advisors don't just focus on regulatory filings — we act as your business ally throughout the journey:

1. Preparing all necessary submissions to the Malta Financial Services Authority (MFSA).
2. Crafting whitepapers that meet MiCA standards.
3. Providing legal opinions on crypto-asset classifications.
4. Offering strategic advice on corporate structuring and governance.
